

KENYA BUREAU OF STANDARDS

ADOPTION PROPOSAL

The Kenya Bureau of Standards intends to adopt the International Standard as detailed here below:

Number: ISO/IEC 29500-4:2008

Title: Information technology – Document description and processing languages – Office Open XML File Formats – Part 4: Transitional Migration Features (1 475 pages)

Scope: This defines a set of XML elements and attributes, over and above those defined by ISO/IEC 29500-1, that provide support for legacy Microsoft Office applications; that is, those prior to the 2008 release. It specifies requirements for Office Open XML consumers and producers that comply to the transitional conformance category.

We are therefore seeking views from potential users in respect of the same. The Standard is available at the Kenya Bureau of Standards Information Resource Centre. Please tick and fill your preference of the listed option. (If the spaces provided are not enough, please attach a separate sheet of paper).
