IEEE and the **IEEE Kenya Section** cordially invite you to participate in a meeting to help implement Kenya's vision for economic growth.

The Meeting will provide:

- An open discussion of technology investment and development in Kenya
- An understanding of the growth of new businesses aligned with Vision 2030's plans for growing the workforce.
- Identification and mitigation of barriers to achieve strategic goals.

Who Should Attend?

- Government policy makers
- Industrial management in key sectors of industrial growth
- Technologists, Researchers (industry and/or academic)
- Thought leaders and mentors in innovation

Why You Should Attend:

- Gather an understanding of the needs and capabilities of the stakeholders
- Gain a better understanding of the opportunities in fields that are important to the economic growth of Kenya
- Have the opportunity to engage in aligning the stakeholders and executing Kenya's strategy.
