

# THE NATIONAL INTEGRATED IDENTITY MANAGEMENT SYSTEM/HUDUMA NAMBA

# Background of NIIMS/HN

- The registration of births and deaths has been carried out in Kenya since 1904 under the Births and Deaths Act cap 149 and the Registration of Persons Act cap 107 and other legislations on management of Citizens and Aliens
- In 2005, the Government of Kenya (GoK) initiated the registration of persons using a harmonized approach to address duplication and cut costs. This exercise has been managed and coordinated by the Integrated Population Registration System (IPRS)
- To improve on the progress made by IPRS, the Government, through Executive Order No. 1 of (2018), and The Statute law (Miscellaneous Amendments) Act, 2018, Sec. 9A established the National Integrated Identity Management System (NIIMS) programme, code-named *Huduma Namba*.

# What is NIIMS/HN?

- NIIMS is a national programme for registration of all Kenyan citizens and foreign nationals in the country
- NIIMS will establish central master population register, that will be the authentic 'single source of truth' on a person's identity

# NIIMS'/HN Fundamental Statements

## Vision

To be the single national custodian of persons' identification data in Kenya

## Mission

To conduct a National Biometric Registration of all Kenyan citizens and foreign nationals residing in the country for enhanced service delivery

# Functions of NIIMS/HN

- To create, manage, maintain and operate a national population register as a single source of personal information of all Kenya citizens and foreigners residing in the country.
- To assign a unique national identification number to every person registered.
- To harmonize, incorporate and collate into the register, information from other data bases in the government agencies relating to registration of persons.
- To support the printing and distribution for collection of all national identification cards, foreigner certificates, births and deaths certificates, driving licenses, work permits, passports and foreign travel documentation, student identification cards issued under the Births and Deaths Registration Act, Basic Education Act, Registration of Persons Act, Basic Education Act, Refugees Act, Traffic Act and the Kenya Citizenship and the Immigration Act and all other forms of government issued identification documentation as may be specified by the cabinet secretary.

# Functions of NIIMS/HN

- To prescribe, in consultation with the various relevant issuing authorities a format of identification document to capture the various forms of information contained in the identification documents for purposes of issuance of a single document where applicable.
- To verify and authenticate information relating to the registration and identification of persons
- To collate information obtained under this act and reproduce it as may be required from time to time
- To ensure the preservation protection and security of any information or data collected, obtained and maintained or stored in the register.
- To correct errors in registration details, if so required by a person or on its own initiative to ensure that the information is accurate, complete, up to date and not misleading and;

# Functions of NIIMS/HN...Cont..

to perform such other duties which are necessary for expedient for the discharge of functions under this act

# Structure of NIIMS/HN

- National Steering Committee
- National Technical Committee
- National Secretariat
  - Technology Sub Committee
  - Registration Sub Committee
  - Legal Sub Committee
  - Communications Sub Committee
  - Budget and Logistics Sub Committee
- 47 County Committees

# Registration Methodology for NIIMS/ HN

This will involve:

- Mobile registration moving from home to home and mobile centres like shopping centres,
- Visit to institutional facilities like prisons, hospitals
- The information will be captured by Use of Biometric kits and data capture forms and will involve a one on one interview with those to be registered.
- There will be physical and actual capture of biometric including finger prints and facial features- children below 6 years will not have their biometrics captured.
- All Kenyan citizens and foreign nationals in Kenya must be registered.
- What is required for registration

# Registration Methodology for NIIMS/ HN Cont.....

- Physical presence
- At least an identification document e.g. Birth certificate, id, driving license, kra pin etc.
- Fields to be captured (refer to data collection form)
- Piloting
- All Kenyans both at home and in the diaspora and foreign nationals in Kenya will be registered.

# Role of NGAOs in the Execution of NIIMS/HN

- Public sensitization,
- Mobilization of the public for registration
- Coordination and supervision of the registration exercise
- Actual registration of the public ( assistant chiefs as registration officers)
- Liaison with national committees on registration
- Ensuring safe custody of registration kits and materials
- Post NIIMS registration

# Sustainability of NIIMS/HN

- NIIMS registration will continue after the mass registration exercise.
- The Assistant Chiefs will remain with the registration gadgets and continue registering new born and any other persons who will have been left out in the mass registration exercise.
- Those who will have attained 6 years will also have their biometrics captured.
- Harmonization and integration of NIIMS with other systems.
- Real time capture of births and deaths as they occur.

# Benefits of NIIMS/HN

- A National biometric population register of all Kenyan citizens and foreign nationals residing in Kenya will be established. This will be used for planning purposes.
- Enhanced existing national registration databases in Kenya
- Harmonized persons' identity data across different domains
- Easy access to government services through the Huduma Namba
- A national reference frame for stakeholders to facilitate respective registrations such as farmer registration, registration for universal health care (NHIF) registration of driving licenses
- Coordinated registration of persons
- Address duplication in registration and reduce operational costs, detect and prevent fraud, impersonation or any other crime.
- An enabler of the big four (4) Agenda.

# NIIMS'/HN and The Big 4 Agenda

## 1. 100% Food and Nutrition Security

NIIMS will facilitate biometric identification and registration of farmers

NIIMS will inform access to subsidized farm inputs (seeds, fertilizers)

## 2. Access to Universal Healthcare

NIIMS will enhance access to healthcare through NHIF registration

NIIMS will identify fraudulent persons through inaccurate data

## 3. Affordable Housing

NIIMS will inform planning and investment in affordable housing

## 4. Manufacturing

NIIMS will identify sources of raw materials for manufacturing

NIIMS will identify SMEs and skills gaps in employment

# NIIMS'/HN Stakeholders

- The Public
- NGAO
- MDAs(Ministries, Department and Agencies)
- Media
- Civil Society
- Political leaders
- Religious leaders
- Business Community

# Publicity for NIIMS/HN

- Road shows
- Public barazas
- Radio and TV advertisements
- Website
- Social media activation
- Fliers and brochures
- Billboards
- Banners

# Frequently Asked Questions on NIIMS/HN

## **What is Huduma Namba?**

Huduma Namba is a programme which was initiated through Executive Order No. 1 of 2018 to create and manage a Central Master Population Register which will be the authentic 'source of truth' of identity of all persons residing in Kenya.

## **Why Huduma Namba?**

To develop a national biometric population database of all persons in Kenya

To assign a personal unique identification to facilitate access to government services

# FAQs on NIIMS/HN

## **Why is the government undertaking the biometric registration process?**

- To guard against impersonation and fraud
- To authenticate personal data
- To enhance access to government services

## **How is this exercise different other government registration processes?**

- It will capture biometric data of all person – both citizens and non-citizens from the age of six
- It will capture more information on an individual
- It will integrate personal identification data of individuals existing in several databases

# FAQs on NIIMS/HN

## **What are the benefits of the exercise?**

It will facilitate easy access to government services such universal health care; subsidized fertilizer; cash transfer; free education etc

## **Why is the registration being undertaken now?**

To facilitate attainment of Government's Big 4 Agenda through the provision of Citizen Data to stakeholders who are charged with delivery of Food Security, Affordable Housing, Manufacturing, and Affordable Health Care for all.

To assist the government in the provision of better services.

## **Is it mandatory for one to register?**

Yes it is. All must register

# FAQs on NIIMS/HN

## **What are the consequences of failing to register?**

A person without Huduma Namba will not access government services including registration/renewal/replacement of National Identification Card; Application for Passport; Application/renewal for driving license, Birth certificate; Enrole for cash transfer for the elderly, subsidized farm inputs and other cash services under the Big 4 Agenda like affordable housing among others.

## **Who is eligible for registration?**

All citizens and foreign nationals in Kenya.

# FAQs on NIIMS/HN

## **Where will the registration take place?**

Mobile registration centres; homes; and special institutions like prisons, hospitals, learning institutions etc.

## **What will be required for one to be registered?**

Identification documents

Physical presence

## **How long will the (mass) registration exercise take?**

30 Days

## **At what time of the day will the exercise be carried out?**

Between 6am and 6pm everyday including weekends and public holidays

# Key Messaging for NIIMS/HN

**Who will undertake the exercise?**

Registration officers (Assistant Chiefs) and Registration Assistants

**Is this registration connected to 2022 elections?**

No

**Is there a document that will be issued after registration?**

No

**What are the consequences of giving false information to registration officials?**

A person who gives false information will be prosecuted under section 129(a) of the Penal Code.

# Key Messaging for NIIMS/HN

- Huduma Namba is a government of Kenya Programme that will create and manage a central master bio-data register by capturing biometric data of all citizens and foreigners resident in Kenya for enhanced access to Government services.
- The registration will be undertaken by registration officers, who are also Assistant Chiefs and Registration Assistants for 30 days.
- The registration will take place at homes, mobile registration centres and in special institutions like hospitals, prisons and learning institutions for (30) days between 6.00am and 6.00 pm.
- During the mass registration period, all citizens and foreign nationals must be registered.

# Key Messaging for NIIMS/HN

- A person who is not registered under the Huduma Namba programme will not access government services such as registration and replacement of ID Card; application and renewal of driving licence and passport; NHIF, NSSF, Birth Certificates, Cash transfer to the elderly, and subsidized farm inputs among others.

## Main functions (with additional software)

Mwaka 2015/16  
Uwazi 8.1/10/2015

### Enrollment

- Demographic data
- Fingerprints
- Portrait
- Signature
- Photos of administrative/ID documents

### ID document check

- Reads multiple ID documents
  - ID cards (contact, contactless, barcode)
  - Driver licenses
  - e-Passports
- ID check using portrait or fingerprints

### Identification

- Remote 1:N search via an ABIS (fingerprints, portrait)
- On-device 1:N search against a local watch list (fingerprints, portrait)

30 Dec 2016

# MAIN FUNCTIONS (with additional software)

1. Enrolment
2. Id document check
3. Identification
4. Biometric acquisition(Fingerprint, portrait)
5. Smart card reading(Contact, Contactless)
6. QR Codes
7. Signature

# Pilot Counties

County	Characteristics	Region	No. of Sub-Locations for pilot
